LeetCode │ GeeksForGeeks │ Hackrrank

SUMMARY

Final-year B.Tech (IT) student with strong skills in Core Java, JDBC, and SQL. Built hands-on backend projects like Hostel Reservation and Garage Management Systems using Java and MySQL. Continuously learning Java Full Stack development and DSA to align with industry expectations and deliver practical solutions.

PROJECT

Document Compressor using Java (Huffman Coding)   Project Link
- Built a lossless file compressor & decompressor using Huffman algorithm.
- Takes file path via command line
- compresses and decompresses files using custom data structures (Tree, Priority Queue, HashMap, Java File Handling).

Hostel Resrvation System (CRUD Operation)   Project Link
- Built a console-based hostel room booking system using Java and JDBC.
- Integrated MySQL to store details like room ID, user name, mobile number, and time.
- Created modular code with a reusable DBConnection class for database operations.
- Handled data insertion, retrieval, and booking logic with error handling.

Garage System (CRUD Operation)   **Feb 2020 - Jan 2021**
- Built a Java-based Garage Management System using JDBC and MySQL to handle customer, vehicle, service, and invoice records.
- Structured the project with modular packages for better code organization and implemented full CRUD operations.

EDUCATION

Priyadarshini College Of Engineering, Nagpur   **Nov 2022 - June 2026**
- Information Technology │ CGPA: 7.5

Samarth Junior College of Science, Ramtek   **July 2020 - March 2022**
- HSC (Class XII), Aggregate Percentage: 63.64%

Samarth High School Ramtek   **July 2019 - March 2020**
- SSC (Class X), Percentage: 88%

SKILLS

- **Technical Skills:** Java, Data Structure & Algorithm, JDBC, MySQL, Java Servlet, Java Sript, C, CPP, HTML, Css
- **Certifications:** Decode Java with DSA by Physics Wallah , 5⭐ in Java Hacker rank
